✓ Chronic Care Management

Product Highlights

Comprehensive

An integrated care team with board-certified primary care physicians enables whole-person care with a personal touch.

Convenient

Members receive lab testing kits shipped to their doorsteps, self-collect their samples, and mail them to the lab in a pre-paid package, all from the comfort of their homes.

Preventative

A proactive approach that includes at-home labs and risk stratification enables early intervention to improve patient experience and outcomes.

Product Details

Primary Care Services

Annual wellness exam, health risk assessment review, screening lab review and recommendations, follow-up visits, care plan development and ongoing support, chronic condition management, post-visit lab ordering and review, and specialist coordination.

Dedicated Physician

Patients can choose a consistent provider who meets their needs and preferences.

Condition Management

Care teams identify and manage chronic conditions on an ongoing basis.

Electronic Integrated Prescriptions

Prescriptions are immediately sent to the patient's preferred pharmacy for easy pickup.

At-Home Labs

Lab tests are delivered to patients' doorsteps, easily returned to the lab in prepaid packages.

Integrated Urgent Care

24/7 urgent care access is included in the primary care solution.

Health Risk Assessment

a comprehensive risk assessment covers physical and behavioral health, lifestyle, and other areas.

Up to
\$500

Did you know?

Patients can save between \$400 - \$500 in episodic savings per consultation.
