Based upon representation from management as to the accuracy and completeness of information provided, the procedures performed by an Authorized External Assessor to validate such information, and HITRUST's independent confirmation that the work was performed in accordance with the HITRUST® Assurance Program requirements, the following platform, facility, and supporting infrastructure of the Organization ("Scope") meets the HITRUST CSF® v11.2.0 Implemented, 1-year (i1) certification criteria:

Platform:

- Reкуро Care residing at Microsoft Azure (Data center)

Facility:

- Microsoft Azure (Data Center) managed by Microsoft Azure located in Texas, United States of America

The certification is valid for a period of one year assuming the following occurs. If any of these criteria are not met, HITRUST will perform an investigation to determine ongoing validity of the certification and reserves the right to revoke the Organization's certification.

- No data security breach reportable to a federal or state agency by law or regulation has occurred within or affecting the assessed environment, and
- No significant changes in the business or security policies, practices, controls, and processes have occurred that might impact its ability to meet the HITRUST Implemented, 1-year (i1) certification criteria.

HITRUST has developed the HITRUST CSF, a certifiable framework that provides organizations with the needed structure, detail and clarity relating to information protection. With input from leading organizations, HITRUST identified a subset of the HITRUST CSF requirements that an organization must meet to be HITRUST Implemented, 1-year (i1) Certified. For certain
